GOBLIN OVERLAY

Setup in Streamlabs Desktop · about 3 minutes

1 PANEL

1. **Layout Editor** → drag **Website** into a slot
2. URL: `https://pdbultoc.github.io/goblin-overlay/panel.html`
3. **Save**
4. In the panel, click **Copy overlay link**

2 OVERLAY

1. **Sources** → **+** → **Browser Source**
2. URL: **paste** the overlay link
3. Width **1920**, Height **1080**
4. Untick **Shutdown source when not visible**
5. Drag it above your game capture

3 USE

- Switch each box on/off in the panel
- Announcements: type them in **messages** (one line per row)
- Showmatch: **series** → **Use current opponent**
- **monk** → **Start** / **Stop**

! FIX

- Nothing shows: source **Properties** → **Refresh cache of current page**
- Panel changes don't arrive: the **sync** dot must be green

ENJOY, GOBLIN!
